# ABOUT LG

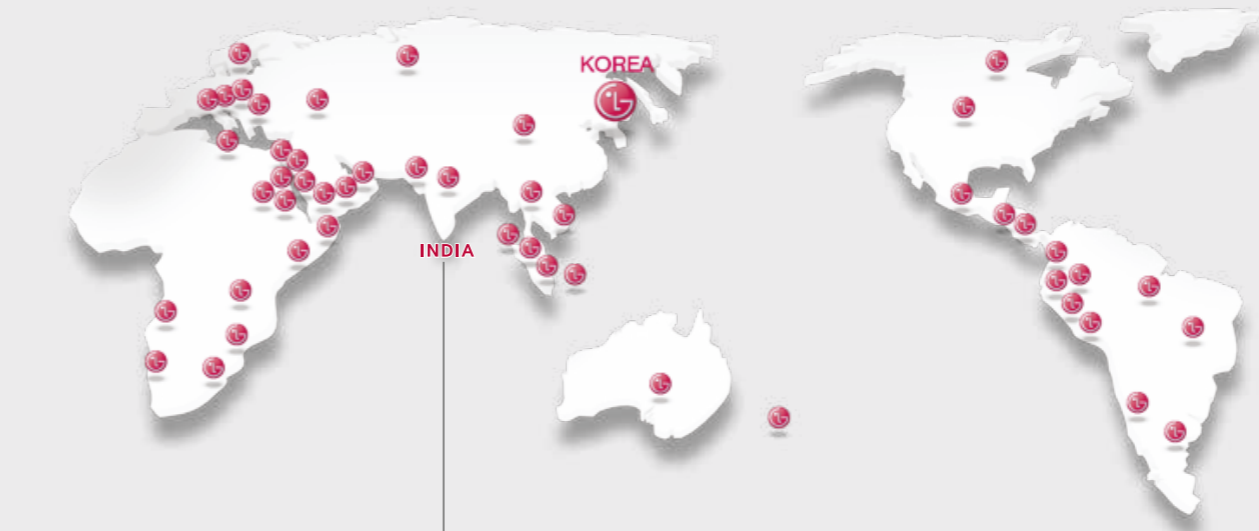

Ever since manufacturing of Korea's first ever air conditioner began in 1968, LG has remained at the forefront of air conditioning innovation. LG has not only been the leading manufacturer of top notch energy efficient solution provider, but also has been amongst the top selling air conditioning brands globally.

With more and more focus on providing superior quality products, our team of experts work tirelessly to create solutions based on latest technologies to provide faster and smarter solutions.

LG India through its world-class manufacturing facilities in Greater Noida & Pune, has been reaching out to its customers with its comprehensive product portfolio that includes VRF systems, ducted splits, rooftop units, cassette units, floor standing units, chillers and building management systems (BMS).

The company also produces outstanding air conditioning professionals at its esteemed academies located in Delhi, Noida, Greater Noida, Pune & Bengaluru India. It has nearly 80 academies worldwide. These centres of excellence, provide workshops and training programs that offer invaluable hands-on experience. To cater the needs of our ever-evolving consumers, we have crafted innovative cooling solutions for commercial as well as for residential homes.

## GLOBAL PRESENCE

## NABL CERTIFIED TEST BED

A fully automatic psychrometric lab in compliance with AHRI/IS standards accredited by NABL

It's time to dwell deep into luxury and experience comfortable cooling. Our premium-looking product is thoughtfully designed for modern residences & commercial spaces. It provides unmatched comfort, extraordinary cooling, and convenience just the way you have imagined. Our range of indoor units is connected to a single system, and is centrally controlled, making it easy for you to choose as per your requirement.

## CONTROL SOLUTIONS

### WIRELESS REMOTE

- On/Off, Temperature Setting, Fan Speed, Auto Swing
- Vane Angle Control, Reservation, Time Display
- Can be used for Duct Models also (by using IR Accessory)

### SIMPLE WIRED REMOTE CONTROLLER

- On/Off, Temperature Setting
- Fan Speed, Mode Change

### STANDARD III WIRED REMOTE

- Humidity Sensor Embedded
- Human Detection Feature
- Air Quality Monitoring

### PREMIUM REMOTE

- 5 inch Touch Screen with Premium Design
- Energy Management
- Yearly Scheduling, Group Control up to 16 IDU

### AC EZ TOUCH

- 64 units, 5 inch Touch Screen & Web Access.
- Schedule Events, Error History, Remote Lock
- Energy Save Mode, Emergency Stop

### AC SMART 5

- 128 units, 10.2 inch Touch Screen, Dynamic UI
- Interlocking, Peak Control, Time Limit, Yearly Schedule
- Energy Statistics, Operation Report, Emergency Stop Feature

### INTEGRATION DEVICE (DRY CONTACT)

- Connection Between IDU & External Devices to Control Various Functions
- Key Tag, Fire Alarm, Motion / Lighting / Door Sensor

### SMART SOLUTION

- System Air Conditioner Mobile App to Control & Monitor the Device from Anywhere and Anytime
- Compatible with iOS or Android Devices

**COST SAVING**

LG's revolutionary Inverter technology boasts powerful yet quiet performance while minimizing energy consumption.

**SPACE SAVING**

LG central unit offers a sleek, modern and compact design that can be safely placed outside of your house. This offers more space for you to enjoy indoor activities.

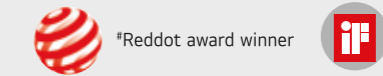

**VOICE CONTROL**

Simple, time-saving voice control for easy access adding to your convenience and comfort.

**MODERN DESIGN\***

\*Reddot & iF award winning design enhances luxury house interior.

\*Year 2016 and 2022 \*T&C apply

**SMART CONTROLS**

Control your air conditioners using smart internet devices like smartphones and smart speakers via LG ThinQ App.

**DURABILITY**

LG's exclusive "Black Fin" heat exchanger is designed to perform even in corrosive environments.

**SUPERIOR AIR QUALITY**

Provide fresh air with powerful air cleaning process and offer real time air quality monitoring system.

**SILENT OPERATIONS**

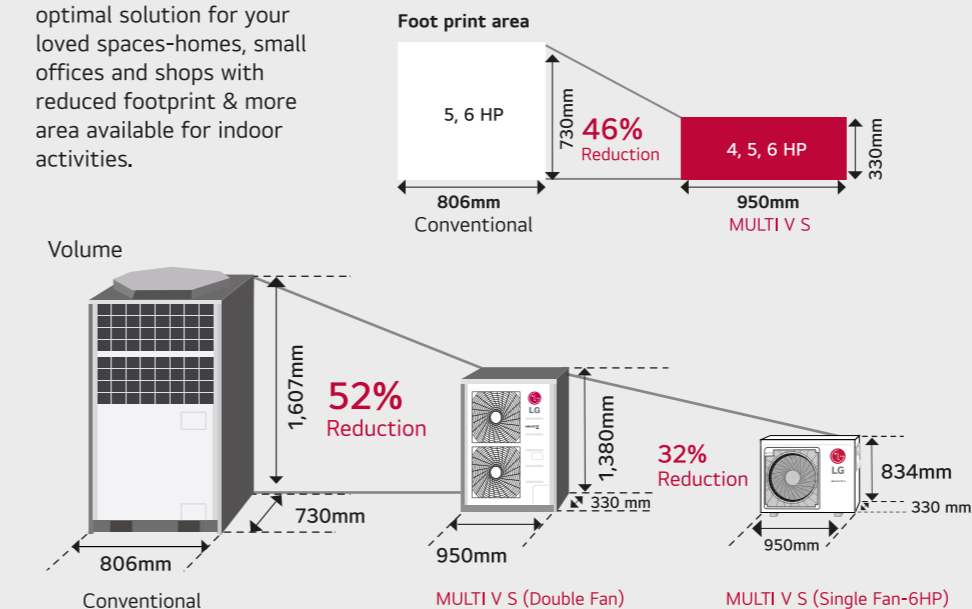

Enjoy noise free environment at anytime with low noise operation function. At night mode, noise reduced maximum 14% compared to normal mode.

# MULTI V S OUTDOOR UNIT FEATURES

## SPACE SAVING

MULTI V S provides the optimal solution for your loved spaces-homes, small offices and shops with reduced footprint & more area available for indoor activities.

# MULTI V S

LG MULTI V S is a compact yet powerful VRF solution for residences and small offices that provides high performance with low operation costs. Discover the smaller, more powerful, and eco-conscious **MULTI V S**.

## COST SAVING

### Max.10% Energy Saving by Smart Load Control

- ※ Indoor air discharge temperature
- Energy efficiency increased by 3-step Smart Load Control during start-up phase.
- Discharge air temperature adjusted according to outdoor and indoor temperature.
- Comfort level in cooling / heating operations ensured.

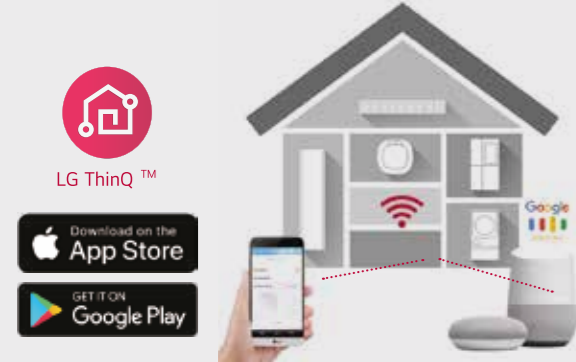

### Max.13% Energy Saving by Real Time Operation

- ※ How to set up : By dip switch in outdoor unit (Referred to Product Data Book) factory default setting is Off.
- ※ Dual sensing (Temperature & humidity) smart load control is possible with remote controller PTEMTB100 (White).

## SMART CONTROLS

### LG ThinQ™

Control your air conditioners using smart internet devices like smartphones and smart speakers.

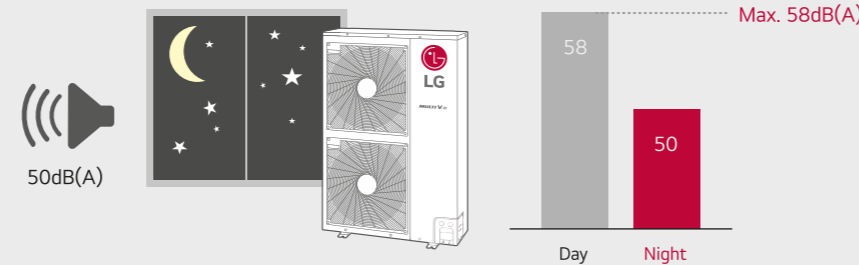

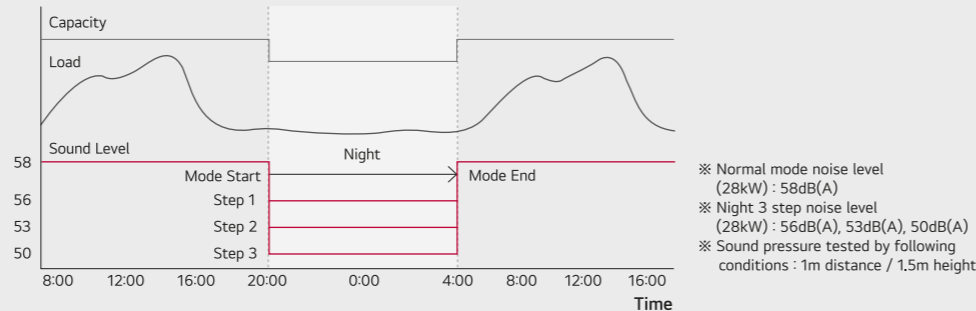

#### Simple operation for various functions

- On / Off
- Mode Selection
- Current Temperature
- Set Temperature
- Vane Control
- Reservation
- Energy Monitoring
- Filter Management

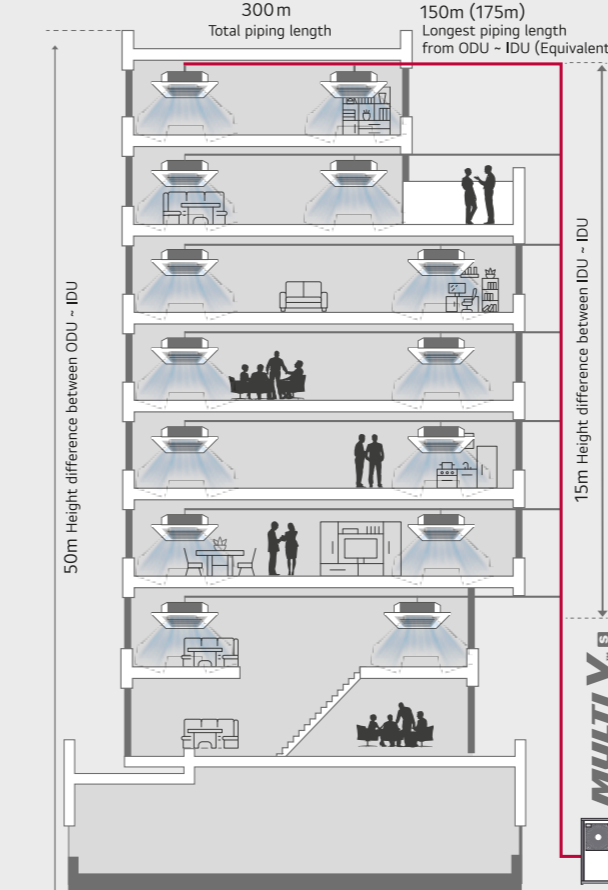

## SILENT OPERATIONS

Enjoy noise free environment at anytime with low noise operation function. At night mode, noise reduced maximum 14% compared to normal mode.

## PIPING LENGTH

A cooling system that can be implemented with more Flexibility in a high-rise apartment buildings, reducing the designer's work time and providing more efficient design

	Standard Model	Compact Model
Model	JRUN(V)_LSS0 (8 ~ 14HP)	ARUN_L(G)SS5 (4 ~ 6HP)
Total piping length	300m	300m
Longest piping length (Equivalent)	150m (175m)	80m (100m)
Longest piping length after 1 <sup>st</sup> branch (Conditional application)	40m (90m)	40m
Height difference between ODU - IDU	50m	30m
Height difference between IDU - IDU	15m	15m

- 1 Centrifugal oil return & Oil separating guide for oil discharge reduction
- 2 Extended operation range (Max. 150Hz) - Higher Cooling Performance
- 3 Shaft-through structure & Support both ends of shaft - Solid compressor operation assuring higher durability
- 4 Bottom compression & Simple structure - Lower Noise & Vibration (Max. 4dB(A)↓) - Less Weight (20%↓) - Superior Reliability

## HIGH EFFICIENCY

### \*RI Compressor™

R1 Compressor is one that combines high-efficiency, low sound characteristics of the scroll and the simple compressing structure of the rotary compressor. This technology enables a highly efficient compact model.

\*T&C apply

## DURABILITY

LG's exclusive "Black Fin" heat exchanger is specially designed for durable and long-lasting performance even in corrosive environments.

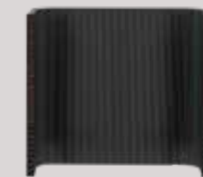

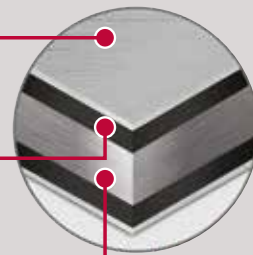

LG Corrosion Resistance solution passed ISO accelerated corrosion test conducted by an independent test organization and the result has been certified by prestigious global certification organization, TÜV.

## Black Fin for corrosion resistance

**Hydrophilic coating**  
 The Hydrophilic coating minimizes moisture build-up on the fin.

**Complex resin (Corrosion resistant)**  
 The black coating provides strong protection from corrosion.

**Aluminum fin**

# MULTI V S INDOOR UNIT FEATURES

## 1 WAY CASSETTE

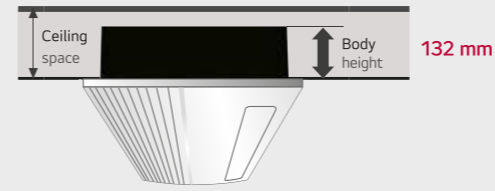

1 Way Cassette with its elegant design fits perfectly into any interior, making it best choice for your loved spaces.

- Even Air Distribution
- Smart Cooling with ThinQ App

reddot design award\*

\*Year 2016 and 2022

## SLIM & COMPACT INDOOR UNIT

Slim indoor unit provides flexibility of installation in the narrow ceiling space.

## 4 WAY AIR BLOW AUTO CONTROL

Auto Up / Down / Left / Right control provides even air distribution.

## SUPERIOR AIR QUALITY

### 5 STEP AIR FILTRATION\*

Air-purifying filter that removes 99.9% of PM1.0 and also removes 99% of ultra-fine dust particles, bacteria and virus.

\*Optional

## 4 WAY CASSETTE

New multi-functional 4 Way Cassette allows energy saving and comfort through Human Detection and Wind Direction control. The modern look fits perfectly & add luxury to your interiors.

Air Purification with PM 1.0 Filtration\*

Human Detection Sensor\*

#Optional

Energy Saving

On/Off Control

Temperature Control

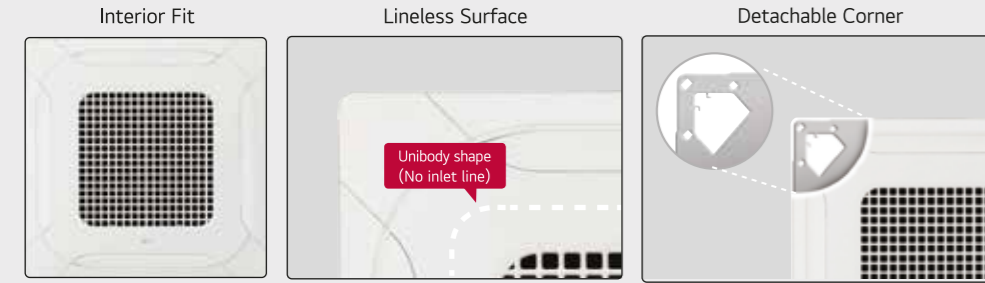

Comfort Air

Indirect Airflow

Direct Airflow

## STYLISH DESIGN PANEL

New 4 Way Cassette panel has a unibody shape that perfectly matches with the ceiling.

DETACHABLE CORNER

INTERIOR FIT

## INDEPENDENT CONTROL OF AIR FLOW

The independent vane operation feature uses separate 4 motors, making it possible to control all four vanes independently. The independent control provides optimal comfort for each user. It is capable of handling inclination angles between 20° ~ 70°.

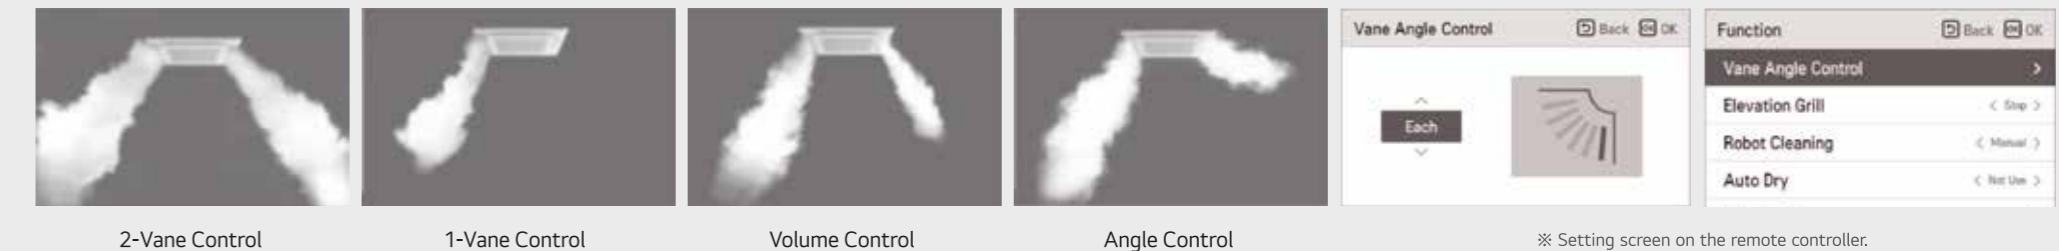

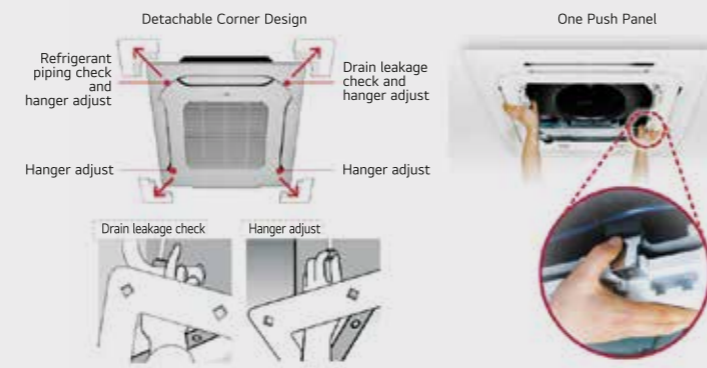

Indirect Air Flow

Direct Air Flow

## CONVENIENT PANEL INSTALLATION

The detachable corner design makes it easy to adjust the hanger during installation and to check for leakages in the drain connection pipe. And it is easy to install the panel to the body simply by using our new button-type design.

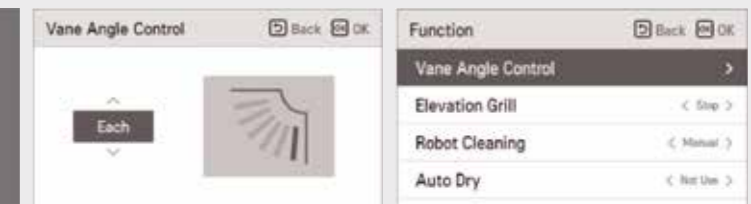

2-Vane Control

1-Vane Control

Volume Control

Angle Control

※ Setting screen on the remote controller.

## ROUND CASSETTE

It's elegant design stands out in any interior and fits perfectly in your space adding elegance. Its panels are styled with clean whites and modern blacks, perfecting your interior.

reddot design award\*

Powerful Cooling with 30% More Air Flow

\*Year 2016 and 2022

PM1.0 Sensor

Smart Indicator

Good

### AIR PURIFICATION KIT

Step 1

Pre-filter

Step 2

Dust Electrification

Step 3

PM1.0 Filter

Step 4

Deodorization Filter

※ Normally HEPA filter type must be replaced regularly. It means that it costs expensive for maintenance.

### LG Round Cassette

### Other Brand

### ROUND AIRFLOW

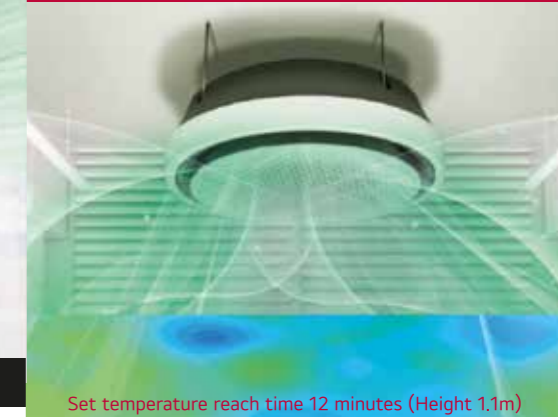

With its 6-step precision control technology and perfect round design, it offers comfortable cooling with natural airflow in every corner.

### 30% FASTER IN COOLING

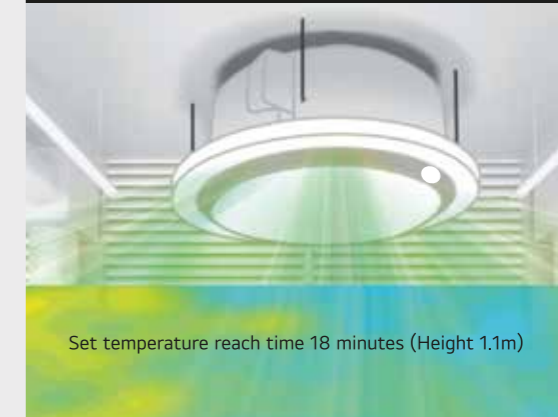

With greater airflow, it cools the room 30% faster without missing a spot.

※ Based on test results from LG chamber, this image is designed to help customers understand. Experimental environment: height 3.2m, 48 kbtu, cooling mode, high flow rate, horizontal air flow direction

### LG Round Cassette

### Other Brand

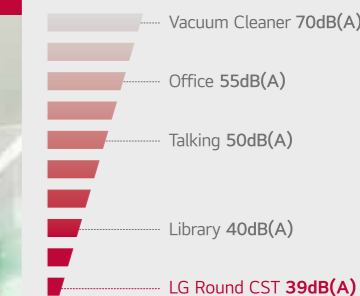

Normal Communication Noise Level 50dB(A)

Full 3D Fan, Low Noise

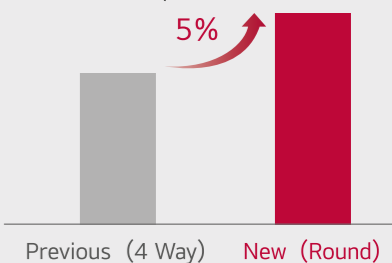

Library Noise Level 40dB(A)

Full 3D Fan, Low Noise

Full 3D Fan, Air flow rate 5% ↑

### POWERFUL AND QUIET AIRFLOW

3D fan increases airflow by 5% and noise reduction technology makes a quieter, more comfortable space.

## LOW STATIC DUCTABLE

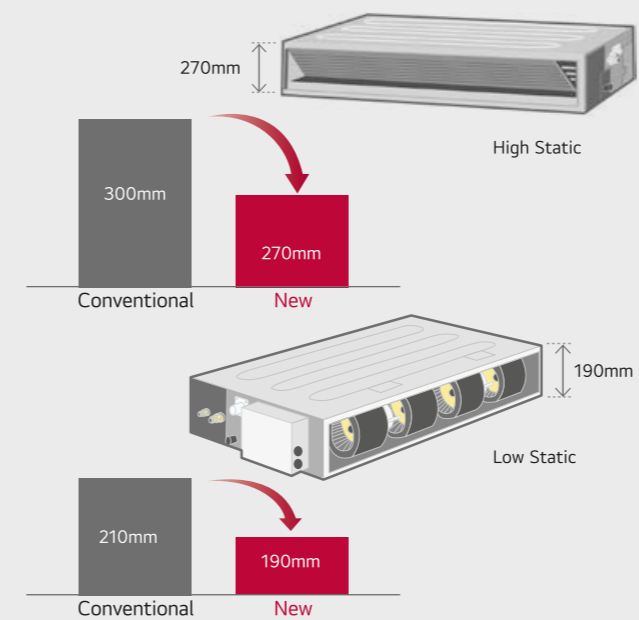

Low static ductable is a concealed cooling and heating solution that provides optimal temperature control without affecting interior aesthetics.

Slim & Compact Design

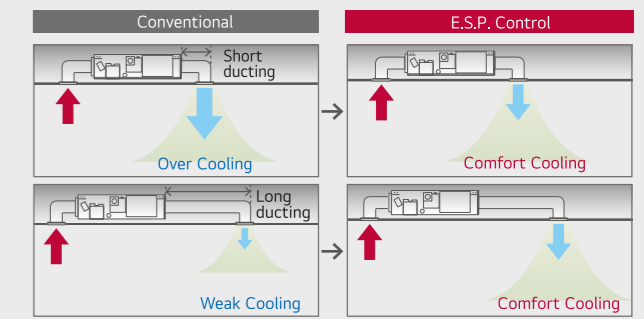

Low Noise Level

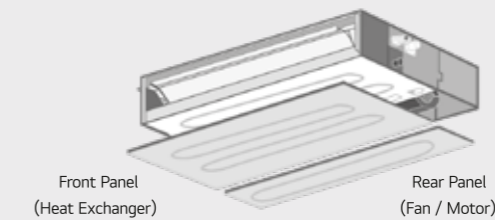

## MINIMIZED HEIGHT

New low-static ducts provide ideal solution for installation in limited space.

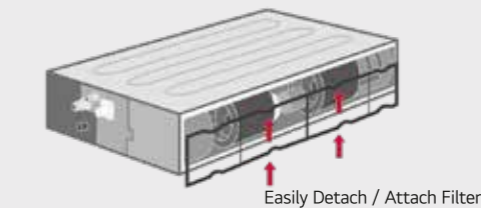

## E.S.P. (EXTERNAL STATIC PRESSURE) CONTROL

This function easily controls volume of the air by a remote controller. The BLDC motor can control fan speed and air volume regardless of the external static pressure. Additional accessories are not required to control the airflow.

Selective Panel Separation

Easily Detachable Filter

## EASY SERVICE & MAINTENANCE

Disassembly of the entire panel is no longer required as the new panel is divided into two parts. One part is for heat exchanger inspection and the other one for fan/motor inspection. The filter can be easily detached and re-attached even in limited spaces.

## WALL MOUNTED

LG Wall Mount unit is a powerful cooling and heating solution that can be installed quickly and easily providing optimized comfort to your loved space.

6-Step Vane Control

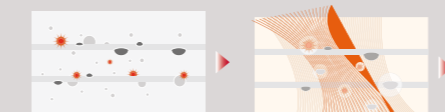

Jet Cool

## AUTO CLEANING

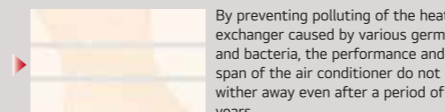

The auto-cleaning innovative feature prevents bacteria, mold and odour formation in the indoor unit which allows the flow of air free from microbes.

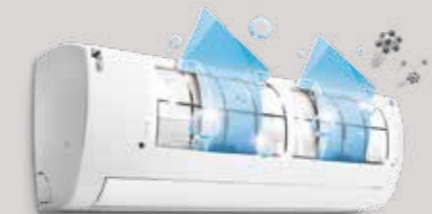

By dehumidifying, the auto cleaning function eliminates substances that might be harmful.

The indoor environment remains odourless with the advanced deodorizing function.

By preventing polluting of the heat exchanger caused by various germs and bacteria, the performance and life span of the air conditioner do not wither away even after a period of 10 years.

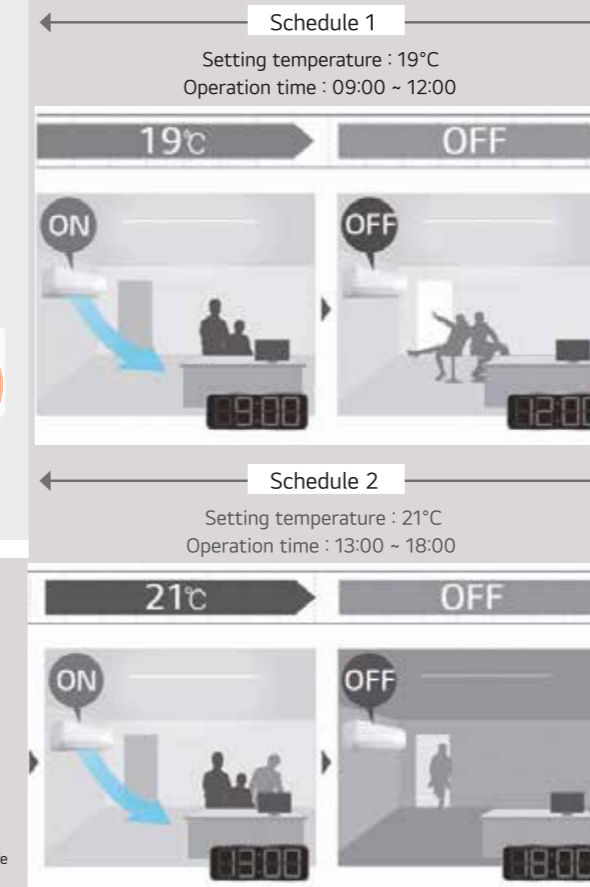

Bacteria Prevention

Odour Elimination

Mold Elimination

## SCHEDULED OPERATION

You can set the daily temperature, fan speed, the operation mode and automatic On / Off time for two weeks. It will keep running on that time until cancelled by the user or after setting period.

※ This function is for wired remote controller only.  
 ※ Wired remote controller is needed to be separately purchased.

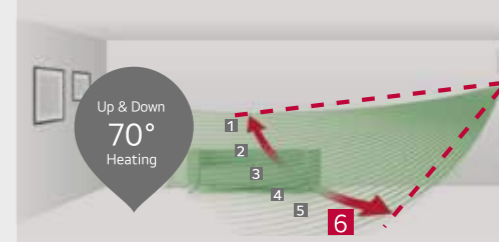

## TWO THERMISTORS CONTROL

The indoor temperature can be checked using the thermistors in the remote controller as well as from the indoor unit. There may be a significant difference between ceiling and floor air temperature. Two thermistors can optimize indoor air temperature for a more comfortable environment.

## 6-STEP VANE CONTROL UP TO 70°

The vertical vane, which moves up and down, has 6 different settings including full swing.

※ Angle can be different from each model and working mode.

## JET COOL

LG air conditioners provide optimized high-speed airflow, which can cool rooms faster while delivering cool air evenly in every direction.

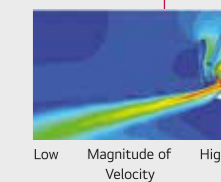

※ Specifications may vary for each model.  
 ※ Depending on the experimental conditions.

## One Click "Jet Mode"

Reduces the temperature of outflowing air to 18°C for 30 minutes with just one click.

More Powerful Performance  
 13.0 CMM air flow

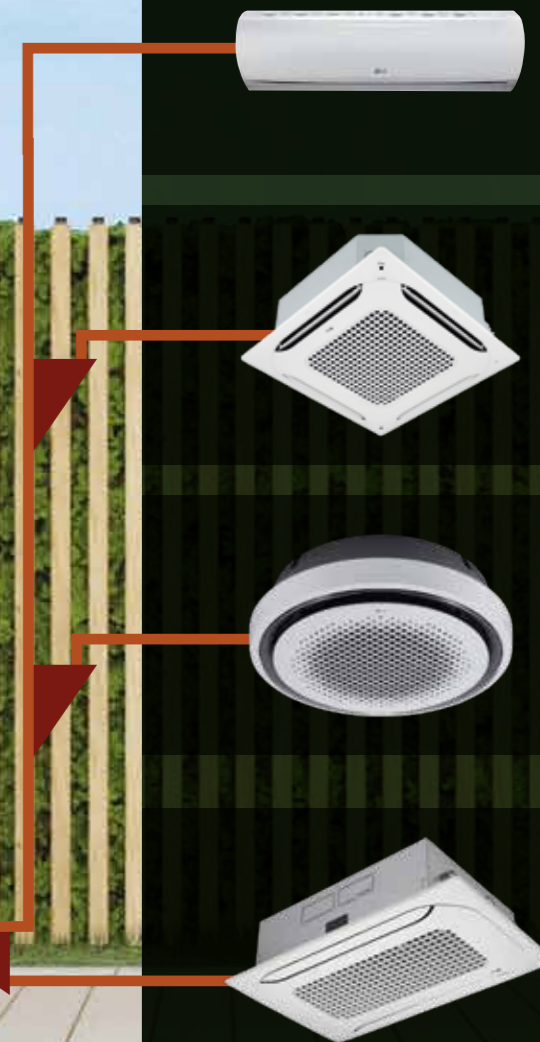

Low Magnitude of Velocity High

# LIGHT COMMERCIAL PRODUCT RANGE FEATURES

## ENVIRONMENT FRIENDLY

R32 is a highly efficient refrigerant with a lower global warming potential. Eco-friendly refrigerant (R32) has better results in lower quantity and has remarkable lower environmental impact.

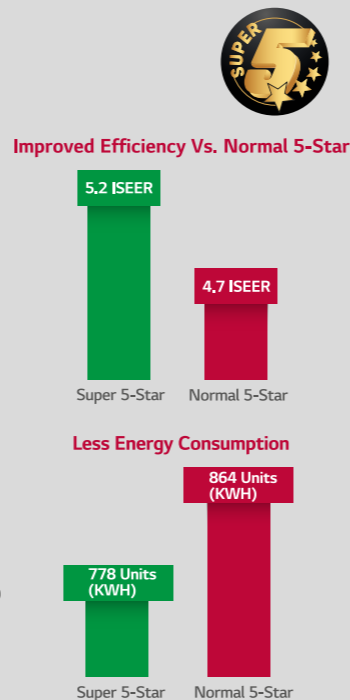

## Benifits

Zero Ozone Depletion (ODP) & Lower Global Warming Potential (GWP). The quantity of R32 refrigerant required is appreciably lower compared to the R410A refrigerant. Consequently, this results in decreasing the potential of global warming. Comparative case studies of the different refrigerants are indicated in the table and chart as below:

	R22	R32
ODP	Medium	Nil
GWP	Mid	Low

Have the lavish luxury of cool air and save enough for the future. LG's latest Super 5-Star Air Conditioners with 5.2 ISEER rating improve efficiency by 10% as compared to conventional 5-Star Air Conditioners with 4.7 ISEER rating.

## DURABILITY

LG's exclusive "Black Fin" heat exchanger is specially designed for durable and long-lasting performance even in corrosive environments.

The black coating is applied for protection from various corrosive external conditions and the hydrophilic film keeps water from accumulating on the heat exchanger's fin, minimizing moisture build-up. This improvement in durability prolongs the product's lifespan and lowers both the operational and maintenance costs.

## SMART CONTROLS

Control your air conditioners using the smart internet devices like smartphones and smart speakers via LG ThinQ app.

### Simple operation for various functions

- On / Off
- Vane Control
- Current Temperature
- Energy Monitoring
- Mode Selection
- Reservation
- Set Temperature
- Filter Management

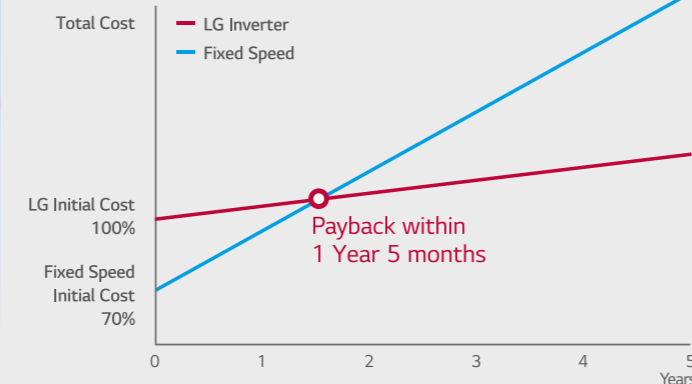

## CONVENIENCE & COMFORT

LG MV (Monitoring View) helps engineers to inspect and monitor air conditioning unit easily.

## COST AND ENERGY SAVING

Short Payback period and easy period check with LG PAYBACK App.

Capacity : 4 T Ceiling Mounted Cassette  
 Operating time : 08:00-22:00  
 Cooling partial load and power consumption calculated based on yearly weather data (Target indoor temperature : 23°C India (Delhi))

- ※ This result can be different depending on actual environment.
- ※ This energy & electric cost saving datas are simulated result with 'LG Inverter payback' application.
- ※ Initial cost of each product is based on market SRP (INR).

# VARIOUS INTEGRATED SOLUTIONS

A wide range of controllers choice gives you better, precise & efficient control of indoor units in your home, creating a comfortable environment.

## EASY CONTROL

Wired remote controller is easy for usage.

Easy

- Navigation buttons, easy to use
- Easy installation setting

Convenient

- Flexible display
- Dual display with air conditioner
- Zoom selected directory to increase legibility

Visible

- Indoor CO<sub>2</sub> level, Air Purify quality level, Humidity
- Alarm for filter change / Remained time to change filters

## ENERGY MANAGEMENT

Users can check power consumption and running time report (Weekly, Monthly, Yearly). Various energy managing settings such as energy target setting, alarm pop-up indication, time limit control and home leave operation are available for efficient management.

## AIR PURIFY SOLUTION

Anywhere! Anytime! Control IDU with Wi-Fi Modem through LG ThinQ.

Air Quality Level Monitoring

- Easily Check Air Quality Status
