LG Business Solutions LG CLOi ServeBot

LG Business Solutions debuted the new innovative LG CLOi ServeBot (model LDLTR30) restaurant-focused service robot. The upgraded ServeBot makes it easier for restaurant owners to improve staff efficiency, safely deliver large amounts of food and dishes at once and provide patrons a futuristic experience that encourages repeat visits and word-of-mouth promotion via social media. As the first commercial robot to receive UL certification for safe operation in consumer environments, the ServeBot raises the bar even higher with upgrades such as independent suspension on all six wheels that ensures reliable transport for drinks and soups over rough or uneven floors. The ServeBot improves the customer experience with a high-definition touchscreen displaying customizable menus, specials and videos. The ServeBot also streamlines processes for restaurant staff with long lasting and autonomous charging options, the ability to guide patrons and Call Bell options for patrons to summon ServeBot for assistance.

Long Table Pancakes Popcorn Pancake/Waffle Mix

Built to fuel an acrobat's workout, Long Table's best-selling popcorn pancake and waffle mix is the first and only retail product made with popcorn flour in the U.S. The world's lightest, fluffiest flour made from ground popped popcorn is paired with buttery oat flour, tender almond meal and a hint of poppyseed for the perfect high-fiber, high-protein pancake. These wildly nutritious and delicious pancakes boast 11g of protein and 5g of fiber per prepared serving. On a mission to put better pancakes on the table today for a healthier world tomorrow, Long Table's 100% heirloom grain mixes feature ingredients sourced directly from regenerative farmers to produce real food you can feel good sharing with the people you love.

Mariani Mango Fruit Chips

Mariani's Mango Fruit Chips are delicious, convenient, and feature 100% whole fruit. Produced using a unique and gentle drying process, Mariani's fruit chips work to reduce the brand's carbon footprint by using less energy than traditional drying methods. While these fruit chips are made using just one ingredient, each pouch is bursting with flavor and has the craveable crunch you look for in a chip-style snack – without added sugar, oils, flavors or stabilizers. Founded in 1906 in Northern California, Mariani has remained committed to the family's century-old mission of inspiring healthy living while serving as a resource for those seeking high-quality whole foods. By upholding their commitment to quality, innovation, and transparency, Mariani has cemented itself as the leading purveyor of the finest dried fruit products on the market.
