- KOMPRESSOR®
First Motorized Compression Vacuum
Dust Compression System
(with Wiper Blade)
- DualForce™ Suction
- Compact Design
- Pet Hair Turbine Tool
- HEPA Filter
- Telescopic Handle
- 30 Foot Cord

BIG POWER, SMALLER PACKAGE

Who says big things can't come in small packages? The LG LuV250C KOMPRESSOR® Lightweight PetCare Vacuum Cleaner is a powerful, feature-packed vacuum contained within an efficient, compact design. The KOMPRESSOR technology allows you to pick up 3 times more dirt, dust and pet hair before emptying it. It has a telescopic handle that collapses for easy storage. And the DualForce™ suction lets you clean a wide surface area and get to hard-to-reach edges.

KOMPRESSOR® System

Goodbye messy vacuum bags. The KOMPRESSOR® system uses a unique wiper blade within the bagless bin to keep it clean while compressing dust intake. That allows you to store up to 3 times more dirt, dust and pet hair vs. non-compressor models, and means there's an easy-to-dispose-of cake of dust when you empty it.

DualForce™ Suction

DualForce™ suction uses two additional air pathways to pick up dirt from both sides, in addition to the traditional center section. This allows you to capture dirt and dust over a wide surface area, and is ideal for picking up dust in hard-to-reach edges.

Compact Design

The lightest vacuum in LG's family of products with all the power of the full size vacuum. The handle collapses for more compact storage and the lighter weight makes it easier to maneuver around your home.
