

LG800G

IN-TOUCH AND ON THE GO

LG800G is more than a messaging handset. It's my lifeline on the go. The touchscreen provides access to those must-have features that keep my life interesting. The virtual QWERTY keyboard speeds up texting, while the camera lets me capture life's special moments. With web access, I'm able to stay connected...whether I'm at work or relaxing at my favorite coffee shop. And the MP3 player and 3.5mm jack brings music to my ears.
