

LG AUDIO

FH6

600W Loudr Speaker System
with Bluetooth®

600W
Flexible Design
Karaoke Creator
Dance Lighting
Effects Creator
Shared Jukebox
LG Music Flow Bluetooth App
Bluetooth®

Flexible Design

The FH6's design was created to allow both horizontal and vertical placement, giving it the required strength and rigidity that allow you to feel the bass regardless of its orientation.

Karaoke Creator

Suppress the vocal frequencies of a song, to turn any track into a Karaoke* track. Then change the key of the vocals to better suit the range of the singer, to help anyone sound like a star. (*Microphone not included)

Dance Lighting

Music and lighting go together at a party. This system offers 64 lighting combinations and a variety of effects, including a feature that lets the light pulse to the beat of the music so the room can see and feel the rhythm.
