Launch Details

Available: November 2015

RRP^: \$349

Bluetooth® Streaming

Take control of your All-in-One Mini System. Download the 'Music Flow Bluetooth®' app and control the volume, input and song selection from your smartphone or tablet.

You can even pair up to three phones or tablets simultaneously*, so friends can play their music one after the other, without going through the reconnection process.

*Music Flow Bluetooth app required. Android devices (minimum Android version 4.0.3) and iOS devices (minimum iOS version 6.0)

Multi-Coloured LED Lighting

Liven up the party with a multitude of colours coming from your speaker! Including Volcano, Police lights, Lightning, Psychedelic and Chaos.

Voice Cancellor and Key Changer

Sing along to any track! Voice Cancellor reduces the existing song's vocals, so that your voice can be heard more clearly.

Key Changer adjusts the pitch of the song to suit your voice! For example, you can lower or raise the pitch to ensure you'll always hit those hard to reach notes.

Microphone Connection

Connect your microphone and sing over your music or use it to draw a crowd.

*Microphone not included and sold separately.
