10kg Front Load Washer with TrueSteam®

TrueSteam®  
for a more  
deeper clean

Available September 2014

RRP: \$1,829<sup>^</sup>

## Features

- ✓ Large Washing Capacity - 10kg
- ✓ 6 Motion Control
- ✓ TrueSteam® Technology
- ✓ Inverter Direct Drive Motor System
- ✓ Smart Diagnosis™ 2.0
- ✓ 1400rpm
- ✓ 14 Washing Programs with 8 Options
- ✓ 10 Year Parts Warranty on the Direct Drive Motor

### Inverter Direct Drive Motor

**LG's Inverter Direct Drive Motor** - combines the direct drive motor with inverter control to provide an ultimate washing experience

**Less Noise** - with less moving parts when compared to other motor systems it creates less noise. Now you can wash while you sleep.

**Greater Durability** - with the direct drive motor at the heart of the machine, that's why you get LG's 10 Year Parts Warranty.

### TrueSteam®

**TrueSteam®** has the natural ability to fluff up fabric fibres. This allows for the steam particles to clean on a microscopic level. Instead of saturating the stain with just one drop of water, we get 1,600 individual steam particles attacking the stain. By combining both water and steam along with washing at a higher temperature your detergent is dissolving much faster, giving a superior wash.

### 6 Motion Control

**Like a hand wash, but better.** LG Washers use a combination of 6 motions, based on hand-washing movements, to clean your clothes. Simply choose a wash cycle and your washer uses the best combination for an outstanding wash, whilst caring for your clothes.

### Large Capacity - 10kg

**Large Capacity of 10kg** means that you can wash more clothes in the one load and have more 'you' time. With the large drum size you can wash bedding, pillows and even your pet blanket regularly at home
