\*UVNano is a compound word derived from the words UV and Nano. \*\*Independent testing shows the UVNano charging case kills 99.9% of E. Coli & S. aureus bacteria on the speaker mesh of the earbuds in five / ten (FMSU) minutes while charging wired or wirelessly as per recommendation. The UV/LED function works only when the charging cradle is connected to the power cable. \*UV LED light is invisible and is only activated when the charging cradle is closed with the earbuds inside. The blue mood light is for aesthetic purposes only and appears when the charging cradle lid is opened. Product features may vary from model to model. \*Standard Volume: 50% with ANC OFF) when listening to music along with charging case. \*\*B&C apply. Product features and color vary in models. Images are representative in nature. \*\*\*Pair quickly and seamlessly with Windows 10 PCs for your work.
