## Smart. Compatible. Customizable.

One of the smartest and most compatible Hotel Televisions in the industry.

### Pro:Centric® SMART

The finest and smartest mode of control and customization for Hotel TVs, LG Pro:Centric® Smart offers all the customizable tools needed to optimize a property's TVs with IP based programs including HTML5, Java and Flash. With this expansion of control comes the ability to provide premium hotel services without the need for a set-top box. Additionally, enhanced connectivity and display sharing are available to the guests with LG Smart TV technology.

Embedded Applications, enables guest to access a wider variety of content including social media applications. LT777H also includes full internet web browser for guest to access.

Enjoy and share content stored on your laptop, digital cameras, smart phones and other devices to your TV conveniently and seamlessly.

\*Video playback only - content on phones may be played on TV through the Smart Share app on compatible LG smartphones

- WiFi
- WiDi
- DLNA
- Remote Jack Pack

Customizable UI HTML5 | Java | Flash

Similar to a smart phone, LG's Pro:Centric smart TVs have WiFi built-in, allowing greater connectivity and access to and from the TV.

# Pro:Idiom®

## Global Leading Digital Rights Management System

Pro:Idiom unlocks access to premium content to help assure rapid and broad deployment of HDTV and other high value digital content.

Pro:Idiom has been designed specifically for users of premium HDTV content from cable, satellite, or video on demand (VOD) services, and is thus designed to lower costs and reduce maintenance needs. This leading DRM system is embraced for its security solution, which prevents illegal copying of copyrighted content.

## Reduced Total Cost of Ownership

Using LG's optional Pro:Centric server, you can remotely manage cloning and channel mapping for TVs in guest rooms without having to visit each room.

EzManager's auto configuration function makes installation quick and easy. EzManager guides the installer to set up the TV with simple steps without having to set up the menu manually, saving time and cost.

## Effectively Manage In-Room TVs

The USB Cloning feature allows you to simply copy the TV settings onto all TVs using a USB stick, a process that is fully automated to save time without having to set each TV one by one.

## FREE Interactive Electronic Program Guide Service for Pro:Centric® TVs!

### Plan Highlights

If your property has purchased or plans to purchase LG's Pro:Centric® TVs, you qualify for a free Electronic Program Guide (EPG) that allows guests to easily navigate TV channels and programs - just like they do at home.

Participating properties must purchase and install a Pro:Centric® server and supply an internet connection for daily program updates. Properties must also contract with an LG authorized partner to install and program the server to match your Free-to-Guest (FTG)

FREE program guide service runs until Dec. 2017, replacing the current programming fee of \$1.50 per room per month.

Contact your LG sales representative or visit [LG.com/us/commercial/display-discover/epg/index.jsp](http://LG.com/us/commercial/display-discover/epg/index.jsp)

## Pro:Centric Applications Platform

The LT777H is the latest in the line of Pro:Centric Televisions that provides a unique and dedicated hotel data broadcasting platform for hosting of LG's SIs System Integrators interactive applications, enabling delivery for a wide range of custom applications tailored to both hotel management and guest needs.

The LT777H extends the choice of applications available to hoteliers through the introduction of HTML5 support in addition to the current Adobe Flash-Lite and Java support. The LT777H is also a full IPTV platform with built-in IP video decoding supporting both IP and RF connectivity. Leveraging the Pro:Centric IPTV platform may allow system integrators their STB (Set Top Box) client software directly into the Television, eliminating the need for the additional STB hardware.

The LT777H supports embedded Wi-Fi for streaming of content to the Television or back channel communications, or can be used simply as an access point.

The LT777H platform includes support tools for the SIs to manage their systems such as Simple Network Management Protocol (SNMP), to enable monitoring of the TV's on the network by the head-end or cloud based server for maintenance and admin purposes. The Wake-on-LAN features allows the TV to communicate in a background mode while the TV is powered off and without disruption to the guest, providing the ability to deliver remote software updates from the head end server.

### The LT777H Pro:Centric Applications Platform

Main Welcome Portal

Channel Guide  
Simple Channel List: Select the broadcast logo to watch your selected TV program

Remote Help  
Learn how to use the Remote controller with easily accessible menu on TV

Language  
Access the system in multiple languages for international guest service from various nations.

## LG's Free-To-Guest Cost Effective Solution

When using LG televisions in Free-To-Guest hotel installations there are now two options for remote management of TV settings such as virtual channel mapping, cloning of installer menu settings, and other settings:

1. Integrated b-LAN, plus LG's Free-To-Guest Management Appliance (FMA)
2. LG's Pro:Centric server (PCS150R)

Both remote management options avoid having to visit rooms to change television settings, thereby saving labor charges to carry out this work.

### Hotel Costs For Free-To-Guest Channel Management

	Estimated Labor Costs	MSRP	Total	Savings over other brand
Other brand	\$20 (est.) x 2 times per year (to update channels) x 100 rooms x 5 years		\$20,000	
LG Pro:Idiom TV with b-LAN integration plus FMA		\$2,250 (FMA)	\$2,250	\$17,750
LG Pro:Idiom TV with Pro:Centric Server		\$1,750 (PCS150R)	\$1,750	\$18,250

MSRP subject to change. Installation not included.

### Free-To-Guest Remote Management Devices

#### PCS150R HEAD-END SYSTEM

Remote management functions also supported via the Pro:Centric server. The Pro:Centric Application software can be remotely added at a later date to deliver the benefits of LG's Applications features (Weather, EPG, Billboards...)

#### FMA-LG101 HEAD-END SYSTEM

Manages channel line-up changes, channel label changes, designates a startup channel, cloning of commercial installer menu settings, and can set the time/date, and broadcast that information to all the terminals on a regular basis. Also, enables Pro:Idiom tuning for Pro:Idiom encrypted content.

## when it's green.

LG is committed to improving product development, manufacturing and usage to meet the demand for products with environmentally friendlier features. Our televisions have technologies to reduce power consumption and in return increase cost savings per room.

### EcoSmart

- **Intelligent Sensor** - Continually monitors room light conditions to automatically optimize the picture quality for a more enjoyable viewing experience, which can help save energy.
- **Dynamic Power Savings** - Using built-in algorithms, TV will automatically reduce the power consumption based on incoming video, while maximizing picture performance.
- **Static Power Savings** - Picture brightness level can be set at the preferred power consumption level to reduce power and increase energy savings.
- **CEC Compliant** - Meets the Appliance Efficiency Regulations of the California Energy Commission.
- **RoHS Compliant** - Meets directive on restriction of hazardous substances.
- **Energy Star 6.0 Qualified** - Meets current Environmental Protection Agency's television product specifications.

#### 47LT777H/42LT777H

#### 37LT777H

#### 32LT777H

#### REAR JACK PANEL

#### SIDE JACK PANEL

#### Anti-Theft System

The Anti-theft system provides security to prevent TVs theft. Consisting of a Kensington Lock, a Credenza and Lock Down Plate.

#### Kensington Lock

• LG Hotel TVs are protected by the reliable solution the Kensington Lock.

#### NEW! Reinforced Metal Stand

• Full metal reinforced stand and also neck to improve sturdiness, durability and safety.  
• Provides ( 20/45/90 degrees) Swivel

#### Lock Down Plate with Credenza Hole

• Lock the TV firmly to the TV stand for added security and help deter theft.  
(Mounting plate, security bolts, nuts and screws are included)
