

LG FHD Monitor for Business

Given its relentless pursuit of revolutionary innovation, LG Monitor has made significant inroads in delivering a wide range of options to suit an increasingly diverse set of requirements. LG's FHD Monitor line-up is offered in a variety of sizes to cater to individual needs that feature intuitive functionality designed for everyday use and specific work environments.

Improved Productivity

FHD (1920 x 1080) IPS Display | Various Ports (USB Type-C™, RJ-45)¹ | Dual Controller (Applies to BA650/BA850)

LG's BA-series FHD monitors feature an expansive IPS display that delivers 178-degree vertical and horizontal viewing angles with lifelike resolution. It provides Power Delivery, optimized port connectivity, and seamless Daisy Chain2 functionality via its available USB Type-C™ and other USB ports, allowing users to link an additional monitor to increase screen space and prevent unwanted disruption while minimizing cable clutter and boosting productivity. RJ-45 allows for an Ethernet connection, providing overall improved stability, and higher security, while the LG dual controller feature lets you connect computers to your monitor and control both devices with just 1 keyboard and mouse.

Optimized User Comfort

Ergonomic Stand³ | Built-in Webcam & Speakers⁴ | Built-in Power | Reader Mode & Flicker Safe Mode

The LG BA-series lineup has models with various feature that make the monitors easier to use. Users can freely adjust its display position as they desire, which is especially beneficial for service industry employees who need to continuously lower their screens to maintain eye contact with customers. It also features a built-in battery, allowing for a cleaner, clutter-free setup, together with built-in speakers (2W x 2Ch) and webcam optimized for convenient video conferencing without the need for additional devices. Its Flicker-Safe Mode and Reade Mode technologies protect users' eyes from fatigue with near-zero flicker reduction and reduce harmful blue light emissions, respectively.

Better Solution for All

EPEAT® | TCO Certified | ENERGY STAR® | Color Weakness Mode

LG BA-series FHD Monitor meet various levels of EPEAT® performance requirements, which take into account overall environmental impact when it comes to the product production process, energy efficiency, supply chain greenhouse gas emissions, and corporate responsibility. LG FHD Monitor is also TCO Certified and therefore satisfies safety criteria that includes hazardous substances, circularity, socially responsible manufacturing, and environmentally responsible manufacturing. It also received ENERGY STAR® Certifications, which evaluates high levels of energy efficiency, and features Color Weakness Mode, which helps color vision deficiency users decipher red and green graphs or data spreads more effectively.

1) The number of available ports may vary depending on the model.
 2) The supported functionality may vary depending on the model.
 3) The supported adjustment range may vary depending on the model. Please refer to the reverse page for more detailed information.
 4) Built-in functions may vary depending on model.
