

# Unpack the LG Home 8 Energy Storage System

The **LG Home 8 ESS** is an AC-coupled residential energy storage solution designed for easy use with a scalable design, versatile stacking, and a 10-year warranty. Prioritizing advanced battery tech, safety, and straightforward installation, it redefines residential energy solutions, providing more power and increased capacity. The all-in-one system includes the Home 8 battery, Smart Energy Box, ThinQ® Smart Monitoring, and EnerVu for fleet management. With streamlined engineering, it ensures seamless integration, minimizing setup complexities and saving installers valuable time.
