

THE PHONE THAT KEEPS YOU IN THE KNOW.

AUDIENCE

You've got a lot to do and a full social network to keep up with. Your busy life requires you to be on the go. You're happy with a handset that looks cutting edge cool and makes it easy to text or tweet, get on IM, and make updates on Facebook, all at an affordable price.

ATTRIBUTES

LG Banter™ Touch is more than a messaging handset. It's your life line on-the-go. Its 3" touch screen provides access to those must-have features that keep your life interesting. The 5-line QWERTY keyboard speeds up texting, while the camera lets you capture life's exciting moments. With full web access, you're able to stay connected... whether at school or relaxing at your favorite coffee shop. And with its MP3 player and 3.5mm jack, it's music to your ears.

ADVANTAGES

3" TOUCH SCREEN

The QVGA display is one of the largest in its class for better message and picture viewing and easier navigation.

QWERTY KEYBOARD

At five lines deep, it has room for a separate numbers line plus an emoticon key. It's more spacious too so thumbs don't get cramped.

2MP CAMERA AND CAMCORDER

It takes pix that are easy to share when you're out and about and rich to look at back on the computer screen. It takes video clips as well.

BLUETOOTH® CONNECTIVITY

Chat away on an earpiece or listen to tunes on a stereo headset — all untethered. Even print photos and contact info wirelessly.

MUSIC PLAYER WITH 3.5MM JACK

Plug in your standard headset and go. Makes it easier to enjoy your playlist from day one.
