2 Channel Audio

Two discrete channels of sound, left and right, assure proper stereo reproduction for a fuller, more engaging experience on movies, TV shows and music.

Auto Sound Engine

Because audio that's too high or too low can be unpleasant, sound bars with LG Auto Sound Engine provide clear, full-range sound and superior clarity at any listening level.

Bluetooth Standby

Now you can power on your compatible LG sound bar by simply establishing the wireless connection. Seamlessly play your music in seconds, with room-filling sound, without ever touching the speaker.
