EasyHome User Interface

Simple, Secure Ways to Wake Your Phone with KnockON and Knock Code™

LG-Exclusive Features such as QuickMemo™ and QSlide Function

Interactivity

- EasyHome – show the dialer and other frequently used features right on the home screen
- KnockON – double tap the screen to put your phone to sleep/wake it without picking it up or pressing the Power/Lock Key
- Knock Code – customize a 2-8 point tapping pattern to secure the phone with over 80,000 possible combinations
- Guest Mode – create a separate unlock screen pattern for guests with preset access and restrictions*
- Capture Plus – save an entire web page as an image to view later
- Clip Tray – copy and paste multiple items to a slide-up clipboard, then select later to use or share
- QSlide Function – overlay up to two windows with adjustable sizing and transparency on the primary screen for easy multitasking
- QuickMemo – create and share personalized memos by taking screen captures and adding handwritten drawings or messages with compatible LG phones
- QuickMemo Overlay – hover a QuickMemo note over any screen such as Dialer or MetroWEB® for intuitive use
- On-Call Notes – access the QuickMemo app to take notes while on a call
- QuickButton – set a shortcut to an application; default app is QuickMemo
- Smart Screen – screen will stay active as long as eye movement is detected
- Privacy Keeper – hide caller information for incoming calls; swipe screen to reveal information
- QuickTranslator with Voice Mode – real-time translations of words, sentences, and phrases from dozens of languages
- Quiet Mode – specify times to disable notifications for calls and messages
- MetroWEB – full HTML web browser with Google™ Search
- Visual Voicemail – scroll through messages and play, archive, or erase with one tap
- Text, Picture, Video, and Audio Messaging†

* Some owner/personal content and information may still be accessible to a user in Guest Mode.
